

November 2019

Plus, the Veteran's Day Event at Bassett Place

Clifford Bossie's Black Falcon

Thanks to everyone that took over for the November 3 meeting while I was in the hospital.

Jim Davis opened the doors. Bill Coster ran the meeting. Joseph Roper took notes for the photos. Steve Herren did the photos. Michael Drapes told me he took a survey about the need to replace me as the Dictator for Life.

There was no count given as to the attendance at the meeting. However, details were worked out for the Bassett Place Show held on November 10, which was more important.

John was in the hospital for 4 nights and 4 days.

Jerry Richardson's F-4J

The Bassett Place Veteran's Display and Show was brought to you by Michael Garcia. Mike loaded the tables on Saturday so that John Estes could deliver them on Sunday morning. Jim Davis and John held the tales while Mike did the work.

The following members displayed a total of 400 models on the tables, and include:

Bill Coster, Jim Davis, Roy A. Lingle, Michael Drapes, Duane Velasquez, Dixi Fischer, Michael Garcia, Kai Garcia, Joseph Roper (set up and take down), Gustav Hebrok, David Torres, Jack Callaway, Justin Segovia, Jose C. Diaz ,and Salvador Samaniego and Richard Macias.

John Estes and Clifford Bossie also spent several hours at the display. Duane Velasquez was in the hospital but Dixi Fischer provided security and information on his display.

Jose C. Diaz's very Popular Paper Buses

Jim Davis's Yellow Wings in 1/48th scale.

You may notice that there are few people in the photos. We set up at 8:00 A.M. in order to give the modelers time to arrange their modeling efforts on the tables. Bill Coster, Roy Lingle, and Michael Garcia exhibit large numbers of models and to arrange hem takes quite a lot of time.
